Production of Biofertilizer through Rhizobium species

Biofertilizer can be defined as biological products containing living microorganisms that, when applied to seed, plant surfaces, or soil, promote growth by several mechanisms such as increasing the supply of nutrients, increasing root biomass or root area and increasing nutrient uptake capacity of the plant.

Sub. Permission to start a project in the Department of Botany

Respected Ma'am,

This is to bring to your kind notice that the Department of Botany seeks your kind permission to start a project for students of BSc Part II and III under subject incharge Dr Deepti Chauhan, Ms. Alpana Adil and Ms. Heena Verma.

The project topic is related to Botany but is not included in the prescribed syllabus of BSc Part II and III Botany.

So, kindly permit us to conduct the project in the current session.

Thank you

Yours sincerely

Pratiksha Pandey
